

Renewable Energy Certificate Information

This offer meets CT's 2026 minimum of 34% renewable energy certificate requirements.

All suppliers must purchase a minimum amount of renewable energy certificates* (RECs) from generating sources based on the amount of electricity the supplier sells in Connecticut to meet the state's Renewable Portfolio Standards (RPS).

Class I 25% – Solar, Hydroelectric, Wind and Fuel Cells.

Class II 4% - Trash-to-Energy sources.

Class III 5% - Combined Heat and Power Facilities, and energy efficiency projects.

Learn more about CT's RPS requirements at [CT RPS Overview](#)

** All renewable energy certificates represent the attributes of renewable generation sources as defined in Connecticut statute. To learn more about renewable energy certificates visit [EnergizeCT](#). **The supplier's purchase of these renewable energy certificates DOES NOT mean that the specific electricity that you are buying through this offer comes from the renewable sources indicated on this label.** Please refer to the next page (generation source information) to see the makeup of the electricity delivered.*

For information about the RECs that are supported through this offer visit [supplier's specific website page for this information]. You can also contact CT's Public Utilities Regulatory Authority at 800-382-4586 or pura.information@ct.gov.
